sales @slplighting.com

1-March-2010

Dear Valued Customer,

SLP has always controlled our fixed and variable costs, but resin prices from our suppliers are increasing and are beyond our control. Therefore SLP must raise the prices for select product shipped out on or after April 1, 2010:

Metalized styrene louvers— 5%

Styrene eggcrate— 9%

Metalized acrylic louvers — 5%

Acrylic eggcrate — 6%

Acrylic lenses — 5%

Polycarbonate — 5%

Please note that not all products will go up by these percentages.

We thank you for your continued support!

Sincerely,

SLP Lighting
