

Dear Customers,

We would like to thank you once again for your continued trust over the years. As we approach the second quarter of 2022, the manufacturing sector continues to be affected by raw material price increases, labour shortages and supply delays.

Although our strategic position in the market allows us to remain very competitive, we are no longer able to assume the increasing costs of raw materials. We must therefore apply a general price increase of 5-15% on our access door models and access door options.

We were also experiencing increases in transportation costs, and this is forcing us to change our transportation rates. The minimum order to qualify for your prepaid shipping cost is now **\$1,800**. (\$2,200 for Oregon, Washington, California, Arizona).

All price increases are effective **June 1, 2022**.

Rest assured that we are continually working to minimize the impact on your projects and to provide you with complete and transparent information!

Thank you for your continued support and trust!

André Daveluy
