

Mesker Surcharge Announcement

Dear Valued Customer,

The building materials industry continues to operate in an environment of significant input cost inflation, specifically raw materials and freight. As communicated earlier this summer, we are relentlessly focused on efficiency and innovation in order to offset cost increases. However, the continuing impact of steel price inflation makes an adjustment to the surcharge schedule necessary.

Therefore, effective with all orders received on and after **September 30, 2021**, **Mesker will implement an additional material surcharge of 20% on ALL Mesker DOOR and FRAME products** (including AX, CX and VX Series). Please note, this 20% surcharge is in addition to the current surcharge of 18%, which became effective August 2, 2021.

Additionally, prices provided in written **quotes on or after August 1st, 2021 will be honored for a maximum of 60 days** from the day the quote was written. Please reach out to your local sales representative to clarify any issues.

As a surcharge, this is intended to be a temporary countermeasure to offset rapidly increasing costs. **When bidding projects of more than 60 days, we strongly recommend integrating price escalators into your quotes.** We will continue to monitor material pricing and labor rates and will take appropriate measures to ensure business continuity.

For more information contact your [local sales representative](#) or call (256) 851-6670.

Thank you your for trust and partnership during this dynamic market period.
