

PRICING BULLETIN

April 21, 2021

Dear Marlite Customers,

We have experienced no reprieve in market volatility and cost escalations relating to raw materials, freight, and packaging. Marlite is managing this market instability but must implement another price increase.

- Standard FRP Panels 5%
 - Class "A", Class "C", Smooth & Textured

The new prices are effective Monday May 17, 2021. Existing prices are effective on all orders placed on or before Friday May 14, 2021 and shipped within normal lead times.

Please note that this price increase does not apply to Marlite value-added panels – such as Symmetrix™, Symmetrix™ SmartSeam, Artizan™ and Induro™ FRP.

Also, we are maintaining current prices on adhesives, although availability of Marlite Brand C551 FRP Adhesive continues to be limited. Raw materials and chemicals required to manufacture adhesives are beginning to flow again, but the supply stream is still compromised.

Marlite is hopeful conditions begin to normalize, and we can review this price adjustment in the future. We thank you for your business during these unprecedented times and look forward to continuing to serve you.

Sincerely,

Greg Triplett
