July 7, 2021

To our valued millboard customers:

Commencing with orders received July 7, 2021, and shipped on or after August 7, 2021, ALL HOMASOTE COMPANY Product PRICES will be increased 8%. This is a result of additional increases in our primary raw materials since our last notice in April. It is unprecedented for Homasote to have three price increases so close together, but the erratic building material industry has left us no other choice.

For planning purposes, our semi-annual maintenance week has begun, and we will resume production the week of July 12th. Leadtime is currently at 9-10 weeks.

Updated price lists will be sent shortly and will supersede our price list dated July 6, 2021.

Thank you for your loyalty and consideration.

Regards,

Warren Flicker
