

PRICING BULLETIN

October 11, 2021

Dear Marlite Customers,

In a volatile year regarding supply and demand imbalances, I'm sure you are growing weary receiving price increase announcement. I certainly prefer not having to write them. However, significant cost increases and shortages tied to raw materials, packaging, and transportation are the core drivers requiring Marlite to adjust the prices of the following products:

- All Marlite Brand Adhesives 10%
 - Including Advanced Polymer Panel Adhesive
- All Marlite Brand Sealants 10%

Despite extraordinary supply issues permeating adhesives this year, Marlite has been able to keep pricing relatively stable in this product category with only one other increase this calendar year (5% effective on March 15th).

The new prices are effective Monday October 18, 2021. Existing prices are effective on all orders placed on or before Friday October 15, 2021 and shipped within normal lead times.

Sincerely,

Greg Triplett
Vice President – Sales & Marketing
