

November 14, 2022

Dear Valued Customer,

We thank you for your business. The QUIKRETE® Companies prides itself in working on the behalf of its customers to keep our costs low and our customers competitive in the marketplace.

As we continue to encounter industry wide cost increases in labor, raw materials, and transportation, we are announcing minimum price increases of between 6% and 12%, on select products effective Jan. 1, 2023 for all QUIKRETE Construction Products items (QUIKRETE, SPEC MIX®, and SAND EXPRESS™). Your local sale representative will be contacting you in the coming weeks to discuss your 2023 products pricing.

We look forward to continuing as your business partner in the upcoming year and continuing to provide the quality products you have come to expect.

Please call with any questions or concern,

Sincerely,

Dale Nehls
National Sales Manager
