Subject: ToolPro Price Increase

To Our Customers,

We are writing to inform you of an upcoming adjustment to ToolPro brand pricing, effective **October 13, 2025**.

Since April, tariff-related increases have raised our costs by **30–50%** above standard levels. While we have offset a portion of these increases through productivity improvements, purchasing strategies, and sourcing initiatives, a modest price adjustment on select ToolPro branded products has become necessary.

Please know this decision was made only after careful consideration. We remain committed to providing the highest quality products and value your continued partnership as we navigate these challenges together.

Your account representative will share an updated ToolPro price list with you in the coming days.

Thank you for your understanding and ongoing support,

CHRIS JONES

PRESIDENT

TOOLPRO
